YUAN SHI KAI PRESIDENT OF CHINA

Elected as Head of New Republic by National Assembly at Nanking

ELECTION FOLLOWED THE
RESIGNATION OF DR. SUN

Sun to Remain President Until Yuan is Inaugurated and Cabinet Chosen

NANKING, Feb. 15.—The national assembly today elected Yuan Shi Kai president. It is believed that Tang Shao Yai, Yuan's representative in the peace conference, will be prime minister.

The election of Yuan Shi Kai ratified the vote yesterday of the assembly to elect Yuan today, the vote being taken on receipt of a telegram from Provisional President Sun Yat Sen at Shanghai containing his resignation and the recommendation that Yuan Shi Kai be tendered the office.

Dr. Sun will retain the presidency until Yuan Shi Kai is inaugurated and a cabinet named. The selection of ministers is scheduled to take place tonight.

Dr. Sun sent the following letter to the assembly:

"Yuan Shi Kai is a man of constructive ability, one upon whom the nation looks hopefully. The country's happiness depends on his procedure. Farewell."

Yuan's failure to come to Nanking has caused many to fear he may plan a military dictatorship.

WANT TO JOIN TO GET ROAD

Attorney Davis Finds Sentiment in Imperial Strong for Coast Road

Attorney S. M. Davis returning this morning from a business trip to El Centro brings back word that a large proportion of the boosters of Imperial county are very anxious to join with San Diego and Orange counties in a fight to get the interstate highway routed through those three counties rather than through Riverside, the Salton Sea and Brawley.

"Attorney Conkling," said Davis, "and others want to hold a meeting at Riverside the last of April. The plan is to have boosters from Imperial, San Diego and Orange counties meet with Riverside and San Bernardino men, and show them that the state commission ought to route the road the southern way."

"I am sure in saying that two-thirds of the people of Imperial county are very anxious to have the road come in from the west. In that way they would have easy access to the ocean and by the shortest route. By the northern route Brawley would be the only city of importance in the county that would be accommodated."

"I expect to bring this matter up for discussion at the next meeting of the Associated Chambers of Commerce."

IT WILL PAY EVERY HOUSEHOLDER IN ORANGE COUNTY TO READ AND HEED

Yesterday was not an exceptional day in the matter of voluntary testimonials to the efficacy of Register advertising. Such testimonials are of every-day occurrence, but we don't always have time to write them up; and, moreover, we do not wish to tire our readers with too much iteration and reiteration.

But for their sakes as well as for our own they should have the fact duly impressed upon their minds that THE REGISTER DOES THE BUSINESS QUICKLY AND EFFICIENTLY WHEN IT COMES TO A PUBLICITY PROPOSITION.

Day before yesterday, Mr. Justice Copeland inserted an ad. of some water stock for rent. He ordered the ad. for three insertions. Yesterday, after one insertion, he ordered the ad. discontinued—stock rented in an hour after paper was off the press.

On Monday Mr. W. O. Shanks of the Santa Ana Dye Works inserted an ad. for three times offering a restaurant for rent. Yesterday after two insertions he ordered the ad. out—restaurant rented.

Yesterday at the California National Bank, Mr. Frank Shearer, representing the Burroughs adding machine, gave a representation of the Register an ad. for a lost pocket-book. When the Register man reached the Register office the pocket-book was there—a case of thought transference?

R. E. Butler, 1416 West Third street, advertised some chickens for sale. The ad. appeared in print about 4 o'clock and by 6 the same evening the chickens were sold.

We actually hear of dozens of such results from Register advertising every month of the year, and of course there are scores of such results every month that we never hear of.

HE WAS ROBBED ON STAFFORD STREET

Two Masked Men Held up Charles Ayers and Took \$10 From His Purse

SHORT MAN OF TWO DID THE TALKING

Victim Got Off His Bicycle When Man Called to Him—Occurred at 12

Held up at the point of a revolver, Charles Ayers was searched last night and robbed of \$10. The hold-up occurred on the north side of Stafford street at the alley between F and G streets. As is often the case in hold-ups there was a long man and a short man. In this case the short man held the revolver and did the talking while the long man kept a grip on Ayers' arm and searched him.

Ayers lives at 824 E. street, and about 12 o'clock last night was riding home on his bicycle when he heard someone call out: "Hold on, there."

Ayers thought it was some of his friends calling to him, and he dismounted from his bicycle and walked toward the sidewalk. When he came close to the walk, he saw the two men crouch from the alley. They had dark-colored handkerchiefs covering their faces to the eyes, and their hats were pulled down low.

"Throw up your hands,"

Hearing that, Ayers saw that a revolver that "looked as big as a cannon" was held on him by the short man.

While Ayers felt his hair begin to lift his hat, he thought some of his friends might be playing a joke on him. He inquired: "What do you mean?" "I mean for you to stick up your hands," replied the man with the gun. By this time the other man, a long, burly fellow, had Ayers by the right arm, and the command to lift his hands was not obeyed by Ayers. He felt perfectly docile as it was. The big fellow slapped each pocket, until he felt a purse in a hip pocket. He took out the purse, opened it and disclosed a \$10 bill, three cents and a hunting license. The money was pocketed, and the remainder placed in the purse and returned to Ayers. The man overlooked 50 cents in another pocket.

"Now, beat it," commanded the little highwayman, and Ayers climbed on his bicycle and headed east. He kept a lookout behind and saw the men run to G street and north on G. Ayers then turned back and went to the city hall, and soon had Policeman Lacy and Ryan on the hunt. They found no one answering the description.

The big man had nothing to say during the hold-up. Ayers says the man who talked spoke without accent, and he thinks the men were not Mexicans. Ayers is an employee of the city water department.

SEND TELEGRAM OF INQUIRY TO SMITH

President Minter Had Read That Forest Appropriation is to be Increased

NEW SECRETARY NOW IN CHARGE

President Has Appointed Various Committees to Serve During Year

As the result of a meeting of the directors of the Santa Ana Chamber of Commerce last night, the following telegraphic message was sent to Congressman S. C. Smith at Washington, D. C.:

"Are informed that forest protection appropriation is in danger of heavy reduction. If this is the case please advise me at once at my expense as Orange county is vitally interested in maintaining this appropriation on account of extreme dry year and irrigation interests."

"Santa Ana Chamber of Commerce."

"G. W. Minter, President." President Minter stated to the board that he had read that the appropriation was to be increased instead of decreased as was reported to Francis C. Cutler of Riverside by Gifford Pinchot. In order to make certain that the appropriation is to be reduced, the telegram sent to Congressman Smith was in the nature of an inquiry. It was agreed that should the congressman's answer show vital danger, a special meeting of the directors of the Chamber of Commerce will be called and active measures be taken to enter protest against the measure.

State Printer Richardson Verifies Serious Charges

SACRAMENTO, Feb. 15.—That the state printing office has paper and stock enough on hand to supply over one million copy books to school children and to meet the demands of the market for over five years is the report of State Printer Friend W. Richardson, made today to the text book committee. He has made a careful investigation and finds that this stock cost one state nearly twice what it could now be purchased for, that the last purchase was made in 1908, and that at that time there was enough stock on hand to supply the market for nine years.

Richardson in an interview today said: "There were 382,387 copy books in the warehouse on the first of the year. There was on hand stock enough to print 624,444 more, making a total of 1,006,831. The average number of copy books sold the past three years was 191,170. The supply on hand will last until April 8, 1917. The last purchase of copy-book paper was made from H. S. Crocker & Co. on June 30, 1908. The price was \$7,058.91. Since that date no copy-book paper has been purchased. On April 28, 1908, there was a purchase of \$7,110.87, on July 30, 1907, \$6,688.00, on June 2, 1907, \$6,724.48 and \$6,610.48. In less than one year 2785 reams of copy paper was purchased from Crocker at a cost of \$34,219.74. The stock was purchased at 19 and 19½ cents a pound. On June 30, 1908, when the last purchase was made, there was enough copy-book stock to supply the market for nearly nine years. There is enough on hand now to last until April 8, 1917. I have asked the various paper houses to give me prices at small, as 100 reams in quantities at stock equal to the stock furnished by Crocker is 10 to 13 cents a pound. This stock, which cost the state \$34,219.74 four years ago can now be purchased for \$18,420.02. It was paid for out of the state text book fund and the question of its disposition was called to the attention of the text-book commission today."

BANK MESSENGERS ROBBED OF \$20,000

Thugs Beat and Rob Men From New York National Bank—Robbers Escape

NEW YORK, Feb. 15.—Two messengers of the East River National Bank were held up, beaten and robbed of \$20,000 today. The thugs escaped. The messengers were en route to the bank when they were assaulted.

It is believed the job is the work of an organized gang. It is the first big robbery in years below the police "dead line" in the financial district.

The messengers, William Smith, aged 61, and Frank Worrell, aged 16, were hurrying to the bank in a taxicab when the robbers leaped on the cab and forced the chauffeur to drive to a corner where an auto was waiting. One covered the driver of the taxicab with a gun, while two others subdued Smith and Worrell, who were beaten into unconsciousness. The robbers fled in the second auto. No trace of them had been found up to late last evening.

It is important that you keep your subscriptions coming and have them all in as early as possible.

An Equal Chance

Every candidate in the race has an equal chance of winning the big E-M-F. Touring Car or one of the other valuable prizes and the success of this campaign lies entirely with the candidate himself. There is just four weeks left until five of our most representative citizens will make the final count and announce the winners of this campaign. There are many people who are interested in your campaign of whom you have no knowledge now, but they are as excited over the race as you are and waiting to vote for the one that looks like a winner. That is the time that you will be getting votes in blocks of thousands. Keep up the race and the interest in your campaign will increase and when the interest is at fever heat the votes will surely follow.

The athlete hears the thunder of applause in the final heat of the race. He hears the cheers of friends as he hears the goal; leading all his opponents. It is music to him. The contestants in the Register's \$1800 gift contest are making a bid for these cheers and they will come in the way of loose votes that are now being held back by interested people who are waiting to see who is going to "STAY WITH IT" so that their votes will not go to waste.

Keep busy right up until the closing hour of the big TRIPLE VOTE OFFER that ends at eight o'clock Saturday night. Tell everyone you see how important it is that they give you their subscriptions now. Many people do not understand what it means to you, but once explained to them they will subscribe cheerfully.

Don't be too easily put off by those from whom you seek subscriptions. Always keep it in mind that a word or two extra, or the special offer properly explained to those whom you meet, may bring many thousands of votes that you would otherwise probably lose.

So remember that a little extra effort now and then will probably be enough to decide your fate. Don't just take the easy ones and let the others go. Never let a person get away from you without being fully satisfied that no one else will land him or her, as the case may be.

Don't talk to a person and just get him in the notion of subscribing and then walk away. That would be talk-

Advantages of a Course of Musical Study at the Orange County Conservatory of Music

One of the great advantages of an institution of this kind is the general spirit and atmosphere of earnest musical study which reacts in a stimulating manner upon the student.

Opportunity is provided for obtaining a rounded and well grounded musical education, not only in Theoretical, but in Practical studies.

The cost is never more than for training under the private teacher, who cannot possibly offer the numerous and diverse advantages which a fully equipped school can. In many instances the cost is even less for the school tuition.

Absolutely free courses in Musical Theory, Musical History, Notation, Sight-reading, Ear Training, etc., will be given to pupils who take a full school-year's course of four consecutive terms of ten weeks each.

Besides the free courses mentioned above, students in the Academic department will have access to the bi-weekly teachers' meetings at which a thorough course in the study of Piano Methods, Teaching Repertoire, Pedagogical Methods, etc., will be given. The best musical literary works will be read and discussed. Present day musical events will be followed.

All pupils will have free admission to talks and lectures on various musical subjects which will be given from time to time by people well versed in their respective themes.

Conservatory students will, in almost all cases, have the advantage of reduced rates to musical events given in Los Angeles and at home. Considering the rare treats in this line which are afforded art lovers every season, this is a superior advantage, and one, of which many of our students have been glad to avail themselves.

MOTORCYCLE RACES ON 22

Race Meet to be Pulled Off—
Rivalry Between Makes
of Machines

The speedlovers of Santa Ana will have a chance to have an afternoon's enjoyment on Feb. 22, when some of the classiest motorcycle races ever pulled off in Santa Ana will be held. All the most prominent machines on the market will be there to defend their laurels. The Indian and Excelsior will be the main contesting machines.

In the opening of the new Coliseum at Los Angeles Sunday, the Indians were the whole show, taking the majority of the events in which they were entered.

There will be several local riders entered in the events of the day. Among them will be Henrickson, the local Indian agent. "Hen" rides the Indian "7" and the Indian "4" like a professional, and when he is straddle of a machine one is sure of some pretty riding. Henrickson says the track is good for a mile a minute at the present. By the 22nd the track will be in first-class condition. The Excelsior people have some dark horse riders and say that the Indian will not be in it, but the Indian speeders are quietly waiting for the time to come.

MADE TEST OF GAS OF WHITTIER PLANT

WHITTIER, Feb. 15.—Following a secret test of the output of the Southern Counties Gas Company in this city a report was read from F. H. Fosdick, an analytical and consulting chemist of Los Angeles, which showed that the gas furnished in this city is of as good quality as any furnished in the state.

A part of Mr. Fosdick's report is as follows:

"I hand you herewith results of my analysis of samples of gas taken in Whittier on February 4 at the gas plant and at the home of councilman J. B. Chaffey which show that the gas is good in this city. The candle power would be between 17 and 18."

There was no rumor given out that the gas was to be tested, consequently no preparations could be made. If it had been desired, and the test showed the exact quality of the gas which has been furnished to the local consumers since the gas ordinance was passed.

The work of testing the gas was undertaken because of the complaints which had been made. The councilmen, particularly Councilman Chaffey, thought it wise to have the test made and, accordingly a man recommended highly for his ability was selected. E. H. Fosdick was the man recommended, he being picked at the suggestion of William Shade, a city gas inspector of Los Angeles and a man who has the reputation for seeing that corporations do what is required of them.

The test made concerns the quality of the gas and not the pressure, the apparatus to test pressure not being at hand.

MARTIN AGREES TO FLY ACROSS THE BAY

Santa Ana Aviator Will Receive \$2000 for Carrying Message to Frisco

OAKLAND, Feb. 15.—The highest tip ever given a messenger boy will be handed Aviator Glenn Martin by Frank W. Leavitt, chairman of the contest committee of the big Oakland meet which opens Saturday.

Martin has been engaged as aerial messenger to convey to Mayor Rolph of San Francisco an invitation to attend the opening of the aerial circus at Oakland aviation field. For his services he will receive \$2000. This amount was voted by the contest committee this morning to the aviator who would undertake the trip. Martin was the first man to convince Leavitt that he would guarantee absolutely to land on some spot within the city. So the "farmer flyer" got the job.

It was Leavitt's idea to have Martin land on the Presidio and to have the Mayor meet him there, but Martin insists that he can land in Van Ness avenue within a block of the proposed civic center. Application will be made for a landing permit and the exact route and landing place will be decided.

Why Salves Can't Cure Eczema

Since the old-fashioned theory of curing eczema through the blood has been given up by scientists, many different salves have been tried for skin diseases. But it has been found that these salves only clog the pores and cannot penetrate to the inner skin below the epidermis where the eczema germs are lodged. This—the quality of penetrating—probably explains the tremendous success of the well known liquid eczema remedy, oil of wintergreen, thymol, glycerine, etc., as compounded in D.D.D. Prescription. IN THE JUSTICE'S COURT LEAVE COUNTY OR BE JAILED

The Officers Have Effective Way of Dealing With Vagrant Suspects

Justice Cox and Constables Jackson and Heard have hit onto a combination that gives them an opening to deal with suspected bicycle thieves against whom it would be hard to make a case of petty larceny stick. The system is to charge the accused man with being a vagrant in that he hangs around with dissolute and idle persons, known thieves, and has no means of support.

In the last year a number of instances have occurred where a Mexican has been caught with a bicycle or part of a bicycle positively identified as stolen. In these instances the man has declared with all the injured innocence in his expression that it is possible to imagine, that the bicycle was sold to him by some other person whose whereabouts are unknown.

The first instance of this was when the Mexican said the name of the man who sold the bicycle to him was Pablo Real.

It was not long before there was another case just like it, and again the theft was laid off on this mysterious, never-found Pablo Real.

It has come to be quite a joke around the courthouse that Pablo Real is the guilty person. Pablo

Real has a good deal to answer for. He is the John Doe of the local Mexicans.

Six Months Each

This morning Inez Juarez, a soft-palmed, lazy-looking native of Mexico, was in court charged with vagrancy. He was caught trying to sell a bicycle, the front wheel of which was stolen from Jess Robinson. Juarez declared he came into possession lawfully. The officers charged him with hanging around the streets, doing no work, working with a gang believed to be making a business of stealing wheels, changing the parts and selling them. Heard and Jackson had the man's record down pat.

"I sentence you to six months in the county jail," said the justice to Juarez, "and I'll give you until dark to get out of this county. If you are caught here again you will be thrown in jail for six months. Now get! Vamoose!"

Juan Ramirez got a similar hand-out. He was trying to sell a bicycle believed to have been stolen at Anaheim. Jackson testified that for three months the youth had been hanging around the gang working for the new sugar factory, begging food but doing no work.

Nothing to It

Al. Comer, who has had charge of a gang of Mexicans digging a ditch for the Santa Ana Co-Operative Sugar Co., lined up a gang of thirty-two Mexicans yesterday with a revolver, and held them. The laborers say that Comer would not allow them to smoke or talk and worked them ten hours when they expected to work but nine. They struck, yelled, poked fun at Comer and left the job. Comer seemed to think that the act constituted disturbance of the peace. He held them until Deputy Sheriff Squires and Constable Heard arrived with three automobiles. The officers took eighteen to jail. When Comer explained his case to the district attorney he was told that he had no chance of convicting the men, and they were released.

WOULD PREVENT ANGEL CITY FROM FIXING CAR FARES

LOS ANGELES, Feb. 15.—Referendum proceedings will be invoked at once against the new ordinance empowering the Board of Public Utilities to regulate street car fares in Los Angeles.

Believing this ordinance will prevent extensions and development by the street railway companies, and that it will seriously injure general business conditions in Los Angeles, prominent real estate men and builders have determined to fight the ordinance.

John P. Steele has been engaged to manage the campaign to secure signatures to the referendum petitions and yesterday Mr. Steele put seventy-five men in the field circulating the referendum petitions.

MEMBER OF THE UNITED PRESS

Entered in the Postoffice in Santa Ana, Cal., as second-class matter.

JUDGE GARY'S INGENUOUS ADMISSION

Judge E. H. Gary, chairman of the United States Steel Corporation, popularly if not lovingly known as the steel trust, is refreshingly frank in his admissions of the mistakes and weaknesses of the capitalistic forces, to which he belongs. In a banquet speech, in which he deplored what he termed "unjustifiable" attacks upon capitalists as a class, he made this ingenious and startling admission: "I must admit that, in many cases, we who have power, have not always done the fair thing. I think we will have done the best for ourselves when we can improve the conditions of mankind."

We heartily join the Long Beach Press in the vote of thanks to Judge Gary which that paper proposes. "Such frankness," says the Press, "is not common among men of your type. If Judge Gary reasoned from effect back to cause he would find that much of the criticism of capitalists as a class today arise from the very fact that Judge Gary admits—that 'we who have the power, have not always done the fair thing.' Let capital and labor always deal fairly with each other and with the general public and the land will not be filled with class talk. Capitalists who have not done and are not doing the fair thing, are responsible for the attacks against them that prevail throughout the country. Capital as capital, or the capitalist as a capitalist is not to be criticised or hated. It is oppressive capital and oppressive capitalist that stir up class feeling and arouse bitterness in men."

Commenting on this Editor Clark of the Riverside Press, who is one of the trustees of the Patton state hospital for the insane, says: "The steady increase in the number of these wards of the state is something that is calculated to make the tax payers sit up and take notice. Last month there were 71 patients received at the state hospital at Patton and the average number of commitments for several months has been above 50, averaging nearly two a day. Bonney Funeral Postponed

The funeral of H. H. Bonney, announced for Friday at 2 p. m., has been postponed till the same hour on Saturday, Feb. 17. The postponement has been made on account of a message announcing the coming of a son, from Mexico where he is stationed as U. S. consul.

The death of this upright man and respected citizen, occurring on Tuesday last at the Santa Ana Hospital following a serious surgical operation performed early in the week, is greatly deplored by all who knew him. A member of the Minnesota "colony," he has many friends here who have known him for many, many years, and these all unite in eulogizing Mr. Bonney for his sterling qualities and sturdy citizenship. He was a devoted member of Sedgwick Post, G. A. R., and will be buried under the auspices of that organization.

THEY INJURE CHILDREN

Cathartics and Pills Cause Distressing Complaints

You cannot be over-careful in the selection of medicine for children. Only the very gentlest bowel medicine should ever be given. Ordinary pills, cathartics, and purgatives are too apt to do more harm than good. They sometimes cause griping, nausea, and distressing after-effects, and may actually injure the health, thus establishing a life-lasting annoyance.

We personally recommend and guarantee Rexall Orderlies as a safe and dependable remedy for constipation and associate bowel disorders. We have such faith in the virtues of this remedy that we sell it on our guarantee of money back in every instance where it fails to give entire satisfaction, and we urge all in need of such medicine to try it at our risk. Rexall Orderlies are eaten just like candy, are particularly prompt and agreeable in action, may be taken at any time, day or night; do not cause diarrhoea, nausea, griping, excessive looseness, or other undesirable effects. They have a very mild but positive action upon the organs with which they come in contact, apparently acting as a regulative tonic upon the relaxed muscular coat of the bowel, thus overcoming weakness, and aiding to restore the bowels to more vigorous and healthy activity.

Rexall Orderlies not only relieve constipation, but help to remove the cause of this ailment. They also frequently overcome the necessity of constantly taking laxatives to keep the bowels in normal condition. There is really in our opinion, no similar medicine so good as Rexall Orderlies for the purpose to which it is directed, especially for children, aged and delicate persons. They are prepared in tablet form and in two sizes of packages; 12 tablets, 10c, 36 tablets 25c, and 80 tablets 50c. Remember, you can obtain Rexall Remedies in this community only at our store—The Rexall Store, Wheeler and Mateer Drug Company, 104 West Fourth street.

AMUSEMENTS

In selecting Miss Nannette Flack for the title role of "Alma, Where Do You Live," which he will present at the Grand Opera House, Feb. 15, Joe Weber displayed his usual wisdom in casting a play properly.

The part is one which requires an unusual talent for farce comedy and a voice of proper training. Jean Briquet is the composer of the most popular music that Paris has ever listened to. But in originating his melodies he sets a task before the singer which is more difficult than is evident on the surface.

It is for this reason that the part of Alma is hard to fill. From over a hundred candidates, most of them lacking in some essential, Mr. Weber selected Nannette Flack. She has that gracious personality which makes farce reasonable, brings the meaning of the author out of the cloud of his own egotistical perspective, and makes of the auditor a friend and sympathetic listener. In addition to this, Miss Flack has a clear, sweet voice which interprets the lilting waltz music of "Alma" in an appealing, commanding method.

Another Big Show at the Bell The musical comedy stars, Morton and Vaughan, in "A Whirlwind of Laughs," are the best of vaudeville artists seen here in a long time, and are featured on the new bill tonight by Manager Roberts at the Bell Theater. The program is a complete change of acts, pictures and music, and promises to be a lot better than the average picture entertainment. This show will be on for two nights only. Tonight and Friday night.

Mr. Editor:—In Tuesday's Register Dr. Bernicke pointed out the financial benefits to be derived from co-operation in general, and from co-operation in particular through membership in the Orange County Fruit Growers' Association. The genial doctor evidently has given the matter much thought and knows what he is talking about. Those interested may do well to heed his advice. But when he says: "There is a moral and ethical side to it also which ought to appeal strongly to the person with religious inclinations," those of us who have more "religious inclinations" than dried fruit ought to feel interested. Let us see:

He says: "The law of co-operation is the law of the common good." Yes, indeed! But is co-operation as it is practiced among us today for the common good of all, or for the common good of a class. Co-operation among fruit growers is for the common good of fruit growers. Co-operation among the railroads carrying this fruit to market is for the common good of the railroads. Co-operation among the wholesalers is for their common good. Same may be said of co-operation among the retailers, not to mention others along the line.

But what about the common good of the fruit consumers? Does not the common good of the growers, wholesalers, retailers, etc., bear rather heavily upon the consumers? And yet, to the man of "religious in-

clinations" the consumer in Chicago is his brother as well as the grower in Orange county. Ought this kind of co-operation all along the line that raises the price of fruit to such an extent that thousands upon thousands of people cannot reach it appeal to the man of "religious inclinations" on the ground that it is for the common good?

What about the co-operation among other producers of the necessities of life that is fast bringing multitudes to the very verge of despair all over this land? Can we consistently condemn in others what we ourselves advocate? The difference is only one of degree and not of kind.

What a game of hide-and-seek we are playing! I am not decrying the co-operation advocated by my good friend Bernicke. But I deny the legitimacy of his appeal to the religious sentiment. It seems to me that nothing short of a scheme that will work for the common good of ALL, and not simply of a certain number, can ever make an appeal to the man of "religious inclinations." That which makes for the common good of some, and thereby contributes to the common hardship of others, must make its appeal, not to the moral and ethical and religious sense, but rather to the modernized Golden Rule: "Do unto others as those others would do unto you, but do it first."

Respectfully,
FRANCIS WATRY.

BETA SIGMA GIRLS

Young Ladies of Popular Class
Join in Valentine Party at
the Rowley Home

A very gay little valentine social was held last evening at the home of the class teacher, Mrs. A. R. Rowley, by some twenty girls of the Beta Sigma Class of the First Presbyterian church. Decorations of hearts and cupid's heads were everywhere. Cupid's day was also a fortune wheel in sight, and what a mysterious fascination it seemed to have for the jolly crew of girls. First one and then another tested the power of the magic wheel, with varying results.

But fortune was undoubtedly kind to most of them for no little kinds were seen peeping over the shoulder of even one of the fair guests.

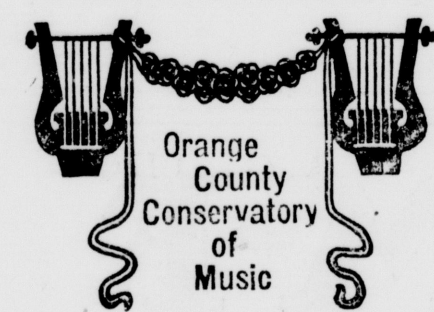

There were merry games, followed by delicious refreshments. Even the refreshments bore distinctive marks of the valentine season, and were all the better for that.

"Cupid at Vassar"

Mister "Cupid" is supposed to be a pretty busy fellow at all times, yet there are times and places when even this energetic young person has his hands full. For instance, when an epidemic of love "takes" in a young ladies' seminary, then Cupid throws up his hands in despair, drops the reins and acknowledges himself beaten at the start. Love in a young ladies' boarding school has the measles or even the smallpox beaten a city block, for contagion.

Love in a seminary, in fact one of the most select young ladies' seminaries in the country, is the theme of the clever drama which is to be presented by the 12-A class of the Santa Ana High School under the direction of Ernest Phillips, next Saturday evening, Feb. 17, at the Grand Opera House.

"Cupid at Vassar," which was given during commencement week will be repeated Saturday evening at a High School benefit, the proceeds going toward a memorial which the 12-A class will present to the school.

The Conservatory stands for progressiveness not alone along musical lines. This is why we are enthusiastic over the local Y. M. C. A. matter. Too bad we are so behind other places of our size in this important work. Let us at least get up-to-date in this. Did you read our offer in Tuesday's issue?

PARENTS AND TEACHERS

Splendid Meeting of the High School Association—Talked on Practical Topics

A postponed meeting of the High School Parent-Teachers' Association was held last night in room 22 of the Commercial High School building. Those in charge were greatly gratified to see so many fathers present, as the evening meeting had been especially arranged for their convenience. The fathers distinguished themselves by entering very heartily into the discussion of the various topics considered. The meeting was presided over by G. W. Wilcox, vice president, in the unavoidable absence of the president, Mrs. Z. B. West. After the reading of the last meeting by Miss Tyrrell, secretary, Prof. W. A. N. Bartlett, representing a committee appointed to investigate as to the advisability of the association joining the Mothers' Congress, stated that, according to a clause in the constitution, the association was already a part of the State and National Mothers' Congress.

Mrs. E. M. Smiley and Miss Joella Gowdy were in charge of the program for the evening, and they are to be congratulated on its success. It was opened by a piano solo rendered by Mr. Vasquez, a high school student. Two excellent essays by girls of the Athena Club were read, the subject of each being "Segregation of Schools." Miss Chandler writing for the affirmative side of the subject and Miss Grubb, the negative. Following a piano solo by Mr. Clark of the High School, H. J. Forgy gave a splendid and practical address on "What parents can do to help the Teachers."

Mr. Shaffer gave an illustration on the graphophone and stated that he would present the instrument to the school who would write the best essay how to obtain the best results of the instrument. Mr. Baker of the Commercial High School, spoke on "What Teachers May Expect of Parents." Co-operation, punctuality, school spirit etc., were some of the points brought out.

Miss Thompson of the regular high school, spoke on the same subject and brought out a number of thoughts that were well for the parents to consider.

A question box was conducted a number of questions being sent in. One question, "What is Being Done to Stop Stealing in the Schools?" brought out a very general discussion. It was suggested that the expressions used, as "snitching" and "swiping," be done away with and the right name of stealing be given and the guilty one branded as a thief, would do a good deal towards stopping the conditions that exist at present. The meeting adjourned and a social time was held when parents and teachers conversed together.

Entertained Inter Se's

Mrs. C. W. Brakeman most delightfully entertained the Inter Se's on Tuesday afternoon, a jolly little supper being preceded by an afternoon devoted to chat and needlework. One of the pleasing features of the event was the reading of a continuous chain of postal cards received by the members of the club from Mrs. A. J. Crookshank, an absent member. The reading of the postals in a certain order made a most entertaining letter descriptive of the glorious time the Crookshanks are having in Cuba.

When supper was served, it was found that Mrs. Brakeman had brought out many of her lovely wedding gifts of china, silver and dainty table linen, in honor of entertaining the club for the first time since her recent marriage. Cute place cards had been manufactured by her clever hands.

Fullerton Man Decries Reduction of Forest Fighting Fund; Commends Register

FULLERTON, Feb. 15.—Mayor E. R. Amerige has taken a strong position against the reduction by the House committee of the fund for fighting fires and the prevention of them by building roads, trails and telegraph lines. He commends the action of the Register in the stand it has taken.

"In Southern California, where the rains are not to be depended upon and where all the wealth of the country depends upon irrigation, it means a suicidal act for us if the fund for preserving the forest preserves be reduced. I am in favor of adding the amount of over one million to the fund rather than reducing it. The forest fires of 1910 furnish an example that should prove conclusively the folly of this action of the House committee. When the forests are burned out, the rain which otherwise would be saved by seepage for irrigation purposes is all wasted. This section must realize what this reduction might mean to it.

"At the meeting of the board of trustees Monday night, the disfavor of that body will undoubtedly be telegraphed to representatives of this section in Washington."

Was Laid to Rest
FULLERTON, Feb. 15.—The funeral services of the late J. M. McWood were held yesterday morning at 10:30 in the First Methodist church. The church choir furnished the music. The remains were buried in the Anaheim cemetery.

The remains have been held since his death on Feb. 9, waiting for his sister to come, but at the last word she was unable to be present.

The K. P. lodge was present at the funeral, this being the first member to die since organization. The Fullerton band also attended.

Civic Bodies Are Getting Busy All Over the County

ANAHEIM, Feb. 15.—"The Boards of Trade should lose no time in getting into communication with their representatives in Washington to protest against the action of the House committee in reducing the fund for the protection of the forest reserves against fires. This is a matter which vitally concerns this section of the country, where everything depends on water as it does. I am glad that someone has taken up the matter, and the Register deserves credit for presenting the matter to the boards of trade throughout the county. Immediate action is necessary, and the representatives at Washington should be made acquainted with the true condition of things in these counties affected.

These were the words of Postmaster Duckworth in speaking of the information in regard to the reduction of that fund by the House committee.

Mr. B. V. Beebe, an active member of the Chamber of Commerce of this city, said: "The action of the House committee was very detrimental to this section. Instead of decreasing the present fund for protecting the forest reserves, he thought it would be of great value to this section if the amount they propose to deduct were added to the present fund. This section depends entirely on water from water stored to be used in irrigation, and from underground supplies, and when you allow the forests to be destroyed, you permit the supply of water to diminish. I would like to see all of these hills covered with trees. I am glad that the Register has taken up the subject, and the matter of communicating with our representatives at Washington will be considered and acted upon immediately."

NEW STEP IN SCIENCE Process Found by Which the Body Can be Rendered Transparent

BERLIN, Feb. 15.—Prof. Spaltholz has discovered a new process by which the human body can be rendered transparent. As yet it is only to treat bodies after death, owing to the chemicals used in the process, but it will, nevertheless, lead to a great extension of knowledge in connection with the nervous system.

The doctor's method is to impregnate the body with liquids that refract the light, making the body transparent with the exception of the nerves which thus become visible.

ESTABLISHES NEW DRILLING RECORD

FULLERTON, Feb. 15.—The Union Oil Co. has made a new record in the oil business for drilling. At present they are down 3600 feet with a ten-inch hole in the well they are now drilling. The former record was 3100 feet for such a large pipe.

WANT MINORS KEPT OUT OF POOLROOMS

W. C. T. U. Women of Fullerton Appointed a Committee to Take Action

FULLERTON, Feb. 15.—The question of minors visiting poolrooms in this city was the main topic of discussion at the W. C. T. U. meeting, which was held Tuesday afternoon at the home of Mrs. Parker on West Commonwealth avenue. The meeting was partly in preparation for a special meeting which will be held in honor of Miss Frances E. Willard's birthday, Feb. 17.

At the meeting Tuesday afternoon a committee was appointed to investigate the city ordinance in regard to minors visiting poolrooms. It is found that there is no ordinance to cover this, the committee was instructed to do all that is possible to have such an ordinance enacted. If there is one, to ask that it be enforced more strictly. The action of the high school and grammar school principals in their stand was commended.

The program was in charge of Mrs. O. M. Skinner of Orange. She presented the life of Miss Willard, and a paper on the life of Miss Willard by Mrs. Emma Schulte; "Memories of Miss Willard," by Mrs. Groff, who was a member of the university of which Miss Willard was the dean. Two solos by the McWalters quartet were enjoyed very much.

After the program a reception was tendered to Mrs. Parker in token of their appreciation of her work for the W. C. T. U. She has been an active member since the organization in this city in 1891. She was presented with a beautiful handbag. Mrs. Parker leaves soon for an extended visit to Canada.

Light refreshments were served.

BECAME A BRIDE IN PRETTY CEREMONY

FULLERTON, Feb. 15.—Wednesday morning at 9 o'clock Miss Catherine A. Parker was united in marriage to Archie A. McCormick, at the home of the bride's mother on West Commonwealth avenue. The ring ceremony, which was very impressive, was performed by Rev. Geo. Groff of the Methodist church.

The pretty home was decorated in white lilies, roses and greenery. The bride was dressed in a beautiful gown of white albatross. The two made a charming couple as they took the sacred vows of matrimony.

The bride is one of the most popular young ladies of Fullerton, and was born and raised here. She is the leading soprano in the Methodist church and is an active worker in church circles. Mrs. McCormick possesses a soprano voice of unusual quality.

Mr. McCormick is the bookkeeper for C. C. Chapman of Placentia.

The bride's going away dress was a gray tailored suit with hat to match.

Mr. and Mrs. McCormick left on the 9:45 Santa Fe train for Santa Barbara, where they will spend a short honeymoon. They were given a hearty send-off with rice and good wishes. They will make this city their future home and will live in Mrs. Parker's home on West Commonwealth. Mrs. Parker expects to leave early in March for an indefinite stay in Canada.

The young folks received many beautiful presents as tokens of regard from their many friends.

IS TO DEAL WITH CHRISTIAN MISSIONS

One of the new courses in the Department of Oriental Studies and Comparative Literature in the University of Southern California will deal with the subject of Christian missions in Asia from the days of Xavier. Dr. James Main Dixon, who is head of the department, will conduct the course, and at a time and place suitable for the attendance of theological students; but it is a course in general civilization, and will be open to all students in Liberal Arts. Dr. Dixon's long stay in the Orient, where he spent thirteen years in the Japanese government service, impressed him with the vital influence which Christian missionaries have exerted upon Western thought and politics. To leave the study undiscussed as a part of a liberal training is unwise, in these days of international interests and complications.
